- Seed beads

- Beading thread
- Beading needle

### **Instructions:**

1. Start by threading a bead onto your beading thread.
2. Bring the thread up through the second bead from the bottom on the left side.
3. Thread on another bead and bring the thread up through the first bead on the right side.
4. Continue alternating sides, adding beads as you go.
5. To start a new row, simply thread the needle through the last bead in the previous row.
6. Continue stitching until you reach the desired size.

### **Tips:**

- Use seed beads that are the same size and shape.
- Keep your stitches even and tensioned.
- If you make a mistake, simply undo the last few stitches and start again.

Peyote stitch is a Native American stitch that is used to create flat, circular pieces. It is a strong and durable stitch that is perfect for making earrings, pendants, and other jewelry pieces.

## **Materials:**

- Seed beads
- Beading thread
- Beading needle

## **Instructions:**

1. Start by threading a bead onto your beading thread.
2. Bring the thread up through the second bead from the bottom on the left side.
3. Thread on two more beads and bring the thread up through the first bead on the right side.
4. Continue alternating sides, adding two beads at a time.
5. To start a new row, simply thread the needle through the last bead in the previous row.
6. Continue stitching until you reach the desired size.

## **Tips:**

- Use seed beads that are the same size and shape.
- Keep your stitches even and tensioned.
- If you make a mistake, simply undo the last few stitches and start again.

Square stitch is a variation of peyote stitch that creates a square shape. It is a versatile stitch that can be used to make a variety of jewelry and accessories, from bracelets and necklaces to earrings and pendants.

### **Materials:**

- Seed beads
- Beading thread
- Beading needle

### **Instructions:**

1. Start by threading a bead onto your beading thread.
2. Bring the thread up through the second bead from the bottom on the left side.
3. Thread on two more beads and bring the thread up through the first bead on the right side.
4. Continue alternating sides, adding two beads at a time.
5. To start a new row, simply thread the needle through the last bead in the previous row.
6. Continue stitching until you reach the desired size.

### **Tips:**

- Use seed beads that are the same size and shape.
- Keep your stitches even and tensioned.

- If you make a mistake, simply undo the last few stitches and start again.

Loom work is a technique that uses a loom to create beaded pieces. It is a versatile technique that can be used to make a variety of shapes and sizes. Loom work is a great option for beginners, as it is relatively easy to learn.

### **Materials:**

- Loom
- Warp thread
- Weft thread
- Beads

### **Instructions:**

1. Start by warping the loom. To do this, wrap the warp thread around the pegs on the loom, starting from the bottom and working your way to the top.
2. Once the loom is warped, cut the warp thread and tie it off.
3. Thread the weft thread onto a needle.
4. Start weaving the beads onto the loom by passing the needle through the warp threads.
5. Continue weaving until you reach the desired size.
6. Once you have finished weaving, cut the weft thread and tie it off.
7. Remove the beaded piece from the loom.

## Tips:

- Use a loom that is the correct size for the piece you want to make.
- Keep your stitches even and tensioned.
- If you make a mistake, simply undo the last few stitches and start again.

Brick stitch, peyote stitch, square stitch, and loom work are four of the most popular beading stitches. These stitches are used to create a variety of jewelry and accessories, from simple necklaces and bracelets to elaborate earrings and pendants.
